*There's Nothing to Lose but **Lost Opportunity!***

WHY AUTHORS SHOULD JOIN US NOW

Free Publicity Pays!

Here are some really good reasons to join us NOW:

1- **Is it really FREE?** YES, It's really Free (i.e., no gimmicks) to put your relevant free articles on our site (Free Resources) or for-sale materials in our Store (we only take a modest commission if something sells)! We want to provide a useful service to the public and we want you to succeed by helping you become better known. Also, we do not require exclusivity; you can put your articles anywhere else you wish. You retain your own copyright (for Free Resources, we just put a discreet link to RealPsychSolutions.com following the copyright notice).

2- **Why are we doing this?** The more articles we offer as an honest public service, the more traffic, clicks on ads, and the more spillover into our Store. Of course, we **do** want to make some money to help maintain the website, but this is not a "get rich quick" scheme for anyone!

2- **How can putting free articles on RPS help ME?** There are several ways:

a- RPS is frequently scanned and articles are indexed by all the major search engines. Also the articles are picked up by other PDF services "as-is" and re-published which helps spread your influence way beyond RPS.com and your own personal website.

b- We spend hours each day optimizing, publicizing and developing RPS.com. Can you afford to spend so much time maintaining your personal website? We have growing traffic each month, likely way beyond what your personal website can achieve, so you get much greater exposure. (By all means maintain your personal website, but let us republish your articles to reach a wider audience.)

c- When a potential client gets a recommendation from a mental health or medical professional, s/he will often get a few names to choose from. S/he, more often than not, will check out the names online. The more you publish, the more you will be "found" in these searches; more "hits" means you appear more active than your (unpublished) peers.

d- Articles let potential clients know you better. All of the different professional degrees and certifications don't really mean that much to potential clients. They want to find someone who has experience with their problems and with whom they "resonate."

e- Even if you have an active website, and re-publish on other sites, there is nothing to lose by also publishing on RealPsychSolutions.com!

3- **OK! How do I get started?** Email us and we'll send you our simple and fair Agreements. You can send relevant articles in Word format. We'll convert these into our PDF format for Free.

Marketing Services

We also offer optional Marketing Services for larger publishing projects (books, ebooks, etc.), newsletters, website design, marketing strategy, etc.
